

Compressed Air Challenge Seminar

Energy Efficiency in Compressed Air Systems

Suffern, NY: Tuesday June 4th, 2019 – Crown Plaza, Three Executive Blvd, Suffern, NY 10901

Speaker: David Booth, U.S. Department of Energy Certified AIRMaster+ Specialist.
Fundamentals of Compressed Air Systems

Continental Breakfast and Registration
7:30 a.m.

Introduction

Why Care About Air?

- Compressed Air Challenge Questionnaire
- Pre-Workshop Assignment

Break

Study Your Supply Side

- What is supply side?
- Typical components of the supply system: compressors, controls, dryers, traps and drains, and filters

Break

Understand Your Demands

- What is the Demand Side?
- Typical components of demand
- Inappropriate uses of compressed air
- Common leak locations and how to fix them.

Break

Are You on Base?

- Baselining Basics and Techniques

Lunch – Will be provided

Stay Under Control

- Controls, part-load efficiency, and storage
- Using Controls – Pros and Cons

Break

Maintain System Efficiency

- Simple, quick cost-cutting measures
- System demand profile

Break

Get with the Plan

- Seven Step Action Plan
- Personal Action Plan

Break

Summary and Evaluation

Adjourn 5:00 p.m.

How much money could this training save you?

Sponsored by: Comairco, Council of Industry (The manufacturers Association of the Hudson Valley) and Orange & Rockland
